PROJECTS

KitScope

Independent Full-Stack Platform

2026 | kitscope.com

- **Engineered** and launched a production-grade web platform for the cross stitch community using **Next.js**, **React**, **TypeScript**, and **Tailwind CSS**.
- **Architected** robust database schemas, indexes, and queries in **Firebase** with **Cloud Functions** and **TanStack Query**.
- **Managed** end-to-end operations including early access onboarding, user feedback integration, and automated support workflows.

Mobile Subscription Manager

Academic Team Project

2026 | Sydney, AU

- **Developed** a cross-platform mobile app over 12 weeks using **React Native**, **Expo**, and **Firebase**.
- **Collaborated** closely within an Agile team across four development sprints to deliver a polished final presentation.

Just a Sec

Independent iOS Utility

2025 | Sydney, AU

- **Engineered** a native iOS utility app using **Swift** and **SwiftUI** to manage time-sensitive reminders with high reliability.

EXPERIENCE

Customer Service & Operations

Café Bones

2023 – 2024 | Sydney, AU

- **Handled** high-volume fast-paced environments, multitasking phone communication, live support, and operational logistics simultaneously.
- **Maintained** a 98% satisfaction rate through clear communication and rapid problem resolution.

Pet Care Specialist & Client Coordinator

Tassevärld

2022 - 2023 | Stockholm, SWE

- **Managed** client relations, administrative logs, and customized care plans while balancing daily active responsibilities.

KEY ACHIEVEMENTS

Analytical Speed
Winner of a mathematics logic competition with a 0.47s reaction speed under pressure.

End-to-End Ownership
Successfully designed, deployed, and maintained a live production platform (KitScope) from scratch as a solo developer.

STRENGTHS

Multitasking & Focus | Full-Stack Development | Problem Solver | User Centric Design (UX) | Agile Mindset | Fast Learner
